No. B.17017/8/2025-DTO(S)

Dated Siaha, the 5th August, 2025

ORDER

In pursuance of the Motor Vehicles (Amendment) Act, 2019, and in accordance with the directions of the Ministry of Road Transport and Highways (MoRTH), Government of India, the Office of the District Transport Officer, Siaha, is pleased to announce the implementation of the Cashless Treatment Scheme for Road Accident Victims in Siaha District.

This initiative is designed to provide free and immediate medical treatment to all victims of road accidents during the critical “Golden Hour,” regardless of their economic or legal status at the time of the incident.

Purpose of the Scheme

The scheme has been introduced with the core objective of saving lives and minimizing fatalities and disabilities resulting from road accidents by ensuring that emergency medical care is not delayed due to lack of money or procedural hurdles.

This public safety measure is now in active operation across Siaha District and its neighboring areas.

Key Highlights of the Scheme

1. Cashless Treatment for All Road Accident Victims
 - Victims of road accidents occurring within Siaha District shall be eligible for cashless treatment at empanelled hospitals.
 - The coverage includes initial emergency care, stabilization, and essential trauma treatment as defined under the scheme.
2. No Need for Payment by Victims or Families
 - Hospitals will be reimbursed directly by the designated Road Accident Fund.
 - Families are not required to make any advance payments for treatment falling under this scheme.
3. Eligibility
 - All persons including pedestrians, riders, passengers, drivers, and bystanders injured due to road traffic incidents — are covered.
 - The scheme applies irrespective of the vehicle’s ownership, insurance status, or who was at fault in the accident.
4. Golden Hour Emphasis
 - The first hour after a traumatic injury is often the most crucial in saving a life.
 - This scheme guarantees uninterrupted treatment during this period to prevent death or serious complications.

List of Empanelled Hospitals in Siaha District

The following hospitals have been empanelled under the scheme and are required to admit and treat victims of road accidents on a cashless basis:

- District Hospital, Siaha.
- Maraland Gospel Centenary Hospital, Siaha.

Process Flow

1. Immediate Reporting:
 - Accidents must be reported to emergency services (Dial 911) or the nearest police station.
 - Victims should be taken promptly to the nearest empanelled hospital.
2. Hospital Admission:
 - On arrival, the hospital shall initiate emergency treatment without delay and without insisting on prior payments.
3. Verification & Documentation:
 - Hospital authorities, in coordination with the DTO and local police, will conduct necessary verifications.
 - Treatment expenses will be processed directly with the fund management body.

Legal Responsibility of Hospitals

All empanelled hospitals are legally bound to:

- Provide immediate treatment to road accident victims without asking for money upfront
- Maintain necessary records of the victim and treatment administered
- Cooperate with district authorities for fund reimbursement

Non-compliance or denial of care shall attract strict legal and administrative action under the Motor Vehicles Act and allied health regulations.

Appeal to the Public

The Office of the District Transport Officer, Siaha, urges the residents of the district to

- Report all road accidents immediately
- Assist victims to reach the nearest hospital
- Spread awareness about this life-saving initiative

Timely medical help can make the difference between life and death. This scheme is a major step forward in making road safety and emergency care accessible and accountable to all.

For any queries, the public may contact Siaha DTO during office hours.
